About: North Point launched its first ever eSports team in September 2021. We started with 5 players competing in Super Smash Ultimate and quickly expanded to 10 in the second half with the addition of Mario Kart Deluxe. The team played weekly against other high schools in US states that share our time zone. We look forward to continuing the eSports programming in the 2022/23 year at North Point. Both games are rated E for everyone.
